62. (a)

Consider the sum $\sum_{r=5}^{12} (3r - 2)$.

Evaluate this sum.

identify the terms: an arithmetic series with 8 terms, first term **13** and last term **34**

(M1) **A1**

$$S = \frac{8}{2}(13 + 34)$$

(M1)

$$= 188$$

A1
